

1st AUTH-KIT summer school, 2-6 September 2019, Possidi, Halkidiki, Greece

Title: Clean Energy and Sustainability

This Summer School is the first of a series which is organized in the frame of the strategic cooperation between the Karlsruhe Institute of Technology (KIT) and the Aristotle University of Thessaloniki (AUTH). It is mainly intended for doctoral students and open to applicants from universities and other research institutions. The Summer School consists of plenary lectures on Circular Economy, Climate Change, Energy Transition and Environmental Observation as well as extended courses organized in parallel streams. The following streams will be offered:

- Climate Change – Climate Impacts –Clean Energy
- Clean Air in Cities
- Bioenergy and Clean Combustion
- Sustainable Use of Water Resources

The lectures will be given and discussed in English. Appropriate English in understanding and speaking is required. The summer school will take place at the premises of the “Kalandra University Camping AUTH” (camping.auth.gr) and the nearby “Possidi Holidays Hotel” in Halkidiki, Greece (possidi-holidays.gr/en).

Participation Costs

The course fee for the Summer School is 300 €. This includes full board, accommodation in the camping and tuition fees. Additional options for accommodation will be available in the application form.

Applications will be accepted on line at <https://www.kathes-research.eu/application.php> until **31/5/2019**. The applicants will be informed for acceptance by mid-June 2019.
