Dear readers,

With every new edition of the *Horizons* scientific journal, the academic public has become used to the expectation that it traces new pathways towards its further establishment in the international educational and scientific – research areas.

For the coming period, just as it did previously, *Horizons* will continue to respect the principles of scientific impartiality and editorial justness, and will be committed to stimulating the young researchers in particular, to select *Horizons* as a place to publish the results of their contemporary scientific and research work. This is also an opportunity for those, who through publishing their papers in international scientific journals such as *Horizons*, view their future carrier development in the realm of professorship and scientific-research profession. The international journal *Horizons* is available on the EBSCO database. The internationalization of our *Horizons* journal is not to be taken as the furthest accomplishment of our University publishing activity. Just as the scientific thought does not approve of limitations of exhaustive achievements, so is every newly registered success of the *Horizons* editions going to give rise to new “appetites” for further objectives to reach.

Last but not the least, we would like to express our sincere appreciation to the organizing and program committee of XIII International Scientific Conference on Service Sector INSCOSES 2016, held at the Faculty of Tourism and Hospitality in Ohrid during the period 06-07 October, 2016. The latest edition of the *Horizons* journal consists of selected papers presented within the frames of the International conference.

Sincerely,

Editorial Board
